BEVERLY HILLS CALIFORNIA

14th July '66.

Dear Mr. Weisberg—

Another request for copies of "Whitewash"! While I feel that Epstein's book has made an extremely valuable contribution in terms of public recognition, of opening the subject for discussion and debate (it has now become "respectable"!!), of disclosing information (the interviews with staff members, notably) which would, otherwise, never have been available etc., etc., yours is the book which should be getting the major attention. Your book is extraordinarily important— You dot all the "i's" & cross all the

"t"s — you do not wallow in equivocation — nor do you seek to excuse the culpable ones; — you document every finding and you do not shrink before the evil of what you have found. You have told the story as it needs to be told — delving beneath the heap of hypocrisy — castigating the "eminent" ones — and exposing, for the first time, the fraudulence and deception that have been perpetrated on this nation and on the world.

For your courage and penetrating exposure, we "researchers" will be forever in your debt — and so should the nation be! In order to help bring this national recognition about, I hereby request 10 copies of "Whitewash" — which I will distribute (I have already given 4 away!)

Very sincerely,
Maggie Field.
